Dear Ms. Cullen,

Thank you for the opportunity to submit this letter in opposition to the Dutchess County Independent Apportionment Committee's draft Reapportionment Plan that divides the Town of Dover into two legislative districts. For the past 20 years, Dover residents have been represented by one county legislator with confidence that their interests and concerns were being served without pretext for the qualifier of their zip code or election district.

We believe the Committee's draft Reapportionment Plan arbitrarily divides our previously holistically-districted community into segments that lend the impression that we are simply "add-ons" to other districts. The Committee's draft reapportionment plan proposes to include Dover Plains with other municipalities that are nearly 30 miles away- the current distance across the county from Dover to the Town of Poughkeepsie. To the south, our Wingdale community is proposed for inclusion as part of a legislative district with the Town of Pawling. Even if the Committee's proposed redistricting plan could be justified as a means to promote greater socio-economic equity, recent US Census data reveals the Town of Pawling's median income is $99,968 in contrast to the Town of Dover's median income of $62,556. The Committee's approach to reapportioning legislative districts in Dutchess County seems to regard municipal boundaries as random lines without consideration that town officials work diligently and year-round to unify our residents and promote community character, sense of belongingness and placemaking as the enduring qualities that draw families and businesses to our communities throughout Dutchess County.

We respectfully ask the Committee to revisit the draft plan and wherever possible, to endeavor to revise reapportionment to keep the Town of Dover and other communities as "whole" as possible in their county legislative representation. Thank you for your time and consideration.
